# **Cylinder station HP 250 Frontline**

2x1 cylinder (bundle) single stage with automatic changeover

## Special characteristics:

Modular design of the pressure regulator and multifunction block.

Assembly and disassembly of all fixtures from the front.

Diaphragm shut-off valve in block design for Process and purge gas with open and close display.

Expandability for 1x2 or 2x2 cylinder / bundle is already integrated. Options for external gas purging can be retrofitted without any problem.

## **Description:**

The HP 250 is a single stage panel for central gas supply with automatic changeover and internal purging. It serves the safe supply of pure and mixed gases from 2 single or 2 bundled cylinders. The changeover takes place as soon as the pressure in the first side sinks below a predetermined level. This is controlled by two installed regulators with connected outlets.

The station is mounted on a stainless steel console consisting of a pressure regulator with in and outlet pressure gauges as well as a relief valve and shut-off valve for the process gas and purge gas.

## Application area:

Especially for gases with high requirements on purity to 6.0. Secure and leak-proof where an uninterrupted supply over night and at weekends must be guaranteed. Through options such as contact gauges and gas alarm boxes (see segment 7) is the supply concept optimised.

Through our special cleaning system our pressure regulators are suitable for ECD – applications.

## **Technical details:**

Body:	stainless steel 1.4404 electro polished or brass, nickel and matt chrome plated
Seat:	PCTFE
Diaphragm:	1.4435
Leakage rate: Against atmosphere	10 <sup>-8</sup> mbar l/s He
Gas purity:	<u>≤</u> 6.0
Max. inlet pressure:	300 bar
Outlet pressure ranges: 10 – 12 bar	
Cv:	0,06
Operating temp.:	-20°C to +70°C
Gauges:	inlet gauge outlet gauge
Dimensions (WxHxD):	480x125x140
Weight:	7,7 kg
Connections:	NPT ¼" f

#### Hornung Quality standard The company Hornung is certified to DIN EN ISO 9001 and ISO 14001:2009. All single parts are manufactured, assembled and tested by in-house production. The finished parts are therefore under all criteria of German quality control with 100% final inspection.
